The Three Great Purifiers

The Great Blood Purifier

Prescription
C-2223

Recommended for the Treatment of Eruptive Skin Diseases, Chronic Catarrh, Rheumatism, Gout, Lumbago and All Conditions Caused by Impure Blood

Two of the greatest purifiers in the world are sun and water, and on both depends life.

As a purifier of the blood, no preparation stands higher than Plough's Prescription C-2223. For years and years this liquid prescription was used by a successful physician in his private practice. He found that this particular formula gave the best results to those of his patients who were suffering from some constitutional blood disease. In time this doctor made quite a reputation both for himself and the prescription which he used; today a large number of bottles are required by druggists to supply the demands of those in need of this meritorious preparation.

In the treatment of Chronic Rheumatism, Catarrh, Scrofula and other similar diseases of the blood, Plough's Prescription C-2223 has given relief to thousands. Despairing, helpless sufferers have secured benefit from this liquid prescription where all other advice and treatment had failed.

If you are suffering from a condition caused by bad blood, or you fear that the poisons and accumulations have never been entirely eliminated from your blood, you should begin now and take the Plough's Prescription C-2223 Treatment. This liquid preparation contains no Morphine, Cocaine, Straychnia, Chloral or Mercury; on the other hand, it is composed of certain medicinal ingredients, all of which are well known to medical authorities as being very effective in the treatment of Rheumatic and Blood Troubles. The very best materials and the greatest care are exercised in the preparation of this splendid treatment, so that you can be sure that if you follow the directions given as to its use, you will be greatly benefited if not permanently relieved.

In the treatment of Chronic Rheumatism, Catarrh, Lumbago, Gout and Sciatica and any condition due to bad blood, it is important that the liver be active. To stimulate the liver, relieve constipation and keep the bowels in a healthy condition, Plough's C-2223 Liver Pills are especially recommended. They do not

nauseate and can be used by those who cannot stand a dose of calomel or other drastic purgatives.

Plough's Prescription C-2223 will cure you of Eruptive Skin Diseases, Chronic Catarrh, Rheumatism, Gout, Lumbago, Sciatica, and all conditions caused by impure blood. It will also cure you of Eruptive Skin Diseases, Chronic Catarrh, Rheumatism, Gout, Lumbago, Sciatica, and all conditions caused by impure blood. It will also cure you of Eruptive Skin Diseases, Chronic Catarrh, Rheumatism, Gout, Lumbago, Sciatica, and all conditions caused by impure blood.

Notice To The Theatre

Going Public

During the last five years photoplay production through the show offices of the producers and directors have won a conspicuous place in the entertainment industry of the public. Up to the present many photoplays are the "Living Classics of the Silent Drama." But it remained for George Jessel to produce a picture that contained anything in the amusement world. It is so small that it is almost to put into the world the appeal of his production, "THE MIRACLES MAN."

It tells you by the heart, the head and the eye and plays its harp on the heart. It is a drama of Faith, of Evil, of Good and Bad. A play of God-seeking souls who at the end come out well rewarded. It is the play that will live in your memory for years to come as the only picture that pictures the supreme cry of the soul made visible. This marvelous production, after a successful run at the New Grand Central Theatre for four weeks, and two weeks at the Central Theatre, will be shown at the Cornet Theatre, on 11st and Market streets, on Thursday and Friday, November 13th and 14th, at the lowest prices of admission this production will ever be shown; for adults 15 cents, and children 10 cents. The tremendous expense for the production has compelled the producers to set a standard admission price which is the only means of enabling a theatre manager to exhibit this supreme picture at the lowest possible price. The Cornet Theatre is confident that his patrons will appreciate such a tremendous offering, paid the biggest money ever paid for a picture production.

Listen, girls, great things are going on at the branch for you. Keep your eyes and ears open as you read and try to win them. Hurry up and join us. On last Friday evening a "Bunch" party was given at the headquarters for the girls by the proprietors of the girls' club. About two hundred girls were present and thirty mothers. The evening was one of the most successful in the history of the club. It is only the beginning of things that are to be done for the girls, so make haste and identify yourselves with us so that you may share some of the good times.

Number of clubs are now being formed from the different schools, and so far Lincoln has the honor of sending the largest group of girls as on last Thursday evening fifty-eight girls came over to the Association and had a jolly hour of recreation. The same group of girls are expected to be organized into clubs. We are hoping to have clubs of girls in every school in St. Louis. Which school shall have the largest number of clubs? Let's wait and see.

NEGROES BUYING REAL ESTATE ALL OVER THE COUNTRY

CHICAGO, Oct. 29.—The Associated Negro Front survey for the week of close national activity along realty lines in every section of the country. Never in the history of the race has there been such large realty deals closed and contracts let, for construction of residences, business blocks, theatres, churches and schools.

Notwithstanding the high cost of living, colored people are showing surprising financial resources. Everywhere there is a growing confidence in financial cooperation and co-operative investments. In some instances, amounts range from \$5,000 to one million dollars.

CLEARING HOUSE NEGLECTS COLORED BANKS
Attention has been very respectfully called to the Clearing House Association of North Virginia, to the fact that in their monthly statement that three colored banks with deposits of more than a million dollars, have not been included up to date in the general report. It is believed that the association will have the desired effect upon the Association.

The Conference of the National League on Urban conditions held in Detroit, has been watched with much interest by people throughout the country because of the very constructive work carried on by the organization. Welfare workers of both races from every section of the country were in attendance and the results of the conference will have almost beneficial effect in a national way upon the problems of the colored race.

Great interest is manifested throughout the country in the Curtis revision before the joint committee of the United States Senate for investigation of lynching and to a statement to the Associated Negro Press, Senator Curtis says: "You may be assured that I will give pleasure to do what I can to secure favorable action. The committee do not feel that they can take the matter up until after action has been had on the Peace Treaty. There is a question of jurisdiction which they want to carefully look into. I feel that because of the importance of the question that the United States government should make a thorough investigation."

It is difficult to comprehend the necessity for having the investigation wait on the Peace Treaty in view of the fact that various other bills are now in progress and organization throughout the country are writing their senators and representatives urging that every influence be brought to bear for immediate consideration.

The question of "jurisdiction" is before the committee and it is believed that it is to the effect that the Senate has a very good right to act.

NO REAL DEMOCRACY WITHOUT EQUAL RIGHTS

WASHINGTON, D. C., Oct. 29.—The National Race Congress in its address to the country says in part: "Patently we have submitted to the many acts of injustice heaped upon us by an indifferent element of this country, and still continuing law and order and the observance of all forms of good government we are now without representation in the nation. It is in the justice of our position, that when it becomes a matter of self-protection—a question of law and order—the man who does not rise in his own defense is not worthy of citizenship."

"If the colored people desire to maintain their proud position among the nations of the world and prove that it is a democracy to deal as well in virtue it must carry out the letter and the spirit of its constitution. Any government which has the right to make its citizens bear arms to its defense must by the same token have the power to protect them. A nation which proposes a despotic progress for the protection of the weak and oppressed people of the world should inaugurate the same program at home. Moreover, we believe it is in the interest of good government and in harmony with the spirit which gave birth to this nation that every intelligent man and woman, North and South, should have the right of suffrage."

Notwithstanding the fact that no colored representative was invited to the conference, we view with gratification the effort now being made in this city by the conference called by the President of the United States, to effect an adjustment of the labor trouble existing throughout the country, and respectfully recommend the adoption of similar action on all genuine public questions.

"The migration of the colored people now being on the part of several southern states is primarily due to the lack of safety at the home and is indicative of the fact that the Negro is unable to obtain the economic value of his labor. This migration is a direct result of the South that all forms of discrimination, Jim Crow cars, segregation and lynchings are still existing; and better school facilities, better housing conditions, and better wages must be provided. If the Negro is to be checked. The index of a large number of new groups in the congested cities of the North and the active co-operation of all concerned, on that score, on an equal basis, must be maintained in their new environment."

"We advocate obedience to law; strict morality; temperance habits; the practice of thrift and economy; the accumulation of money and property and counsel our people everywhere in the advancement of education by the use of all state institutions to make equal and adequate preparations for school buildings, material for teachers and provide for a minimum school term of
